

Directions to Mt. Tahoma Trail Association's South District

From Whittaker Mountaineering in Ashford, head roughly 2.5 miles east on SR 706 towards Mount Rainier National Park.

Turn right at Kernahan Road/Forest Service Road 52 and follow the road down across the Nisqually River.

As the road starts to bed to the left you will see a neighborhood on the right called Paradise Estates. Turn right as if you are heading into the neighborhood and notice a road ahead that will take you up to the SNO-PARK.

Follow this road until you come to this sign where you will turn right.

Pass over several bridges on your way to the SNO-PARK. This one is Catt Creek

Here you can either head up to the SNO-PARK or head right towards the Anderson Lake trailhead.

Only vehicles are allowed in the SNO-PARKS. Above the SNO-PARKS, only foot traffic is allowed. Dogs are permitted.

At the lower SNO-PARK there is a bathroom for use. At this point you want to make sure and have your SNO-PARK permit visible on your windshield. Once you pass the restrooms drive to the Upper SNO-PARK. The road is usually plowed to this point.
